Global sourcing & supply of metal products

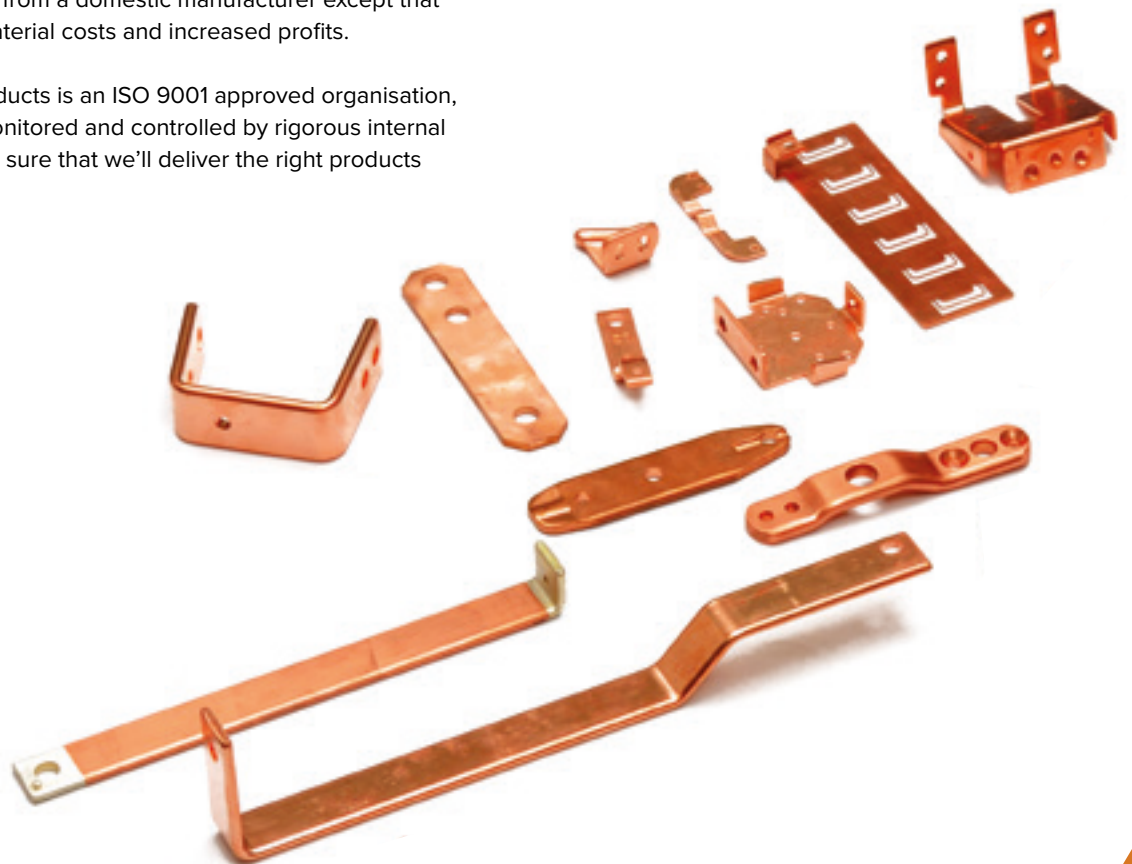

Based in Tyldesley, Manchester and founded over 40 years ago, MSS Products Ltd is now one of the most successful providers of metal products in the world.

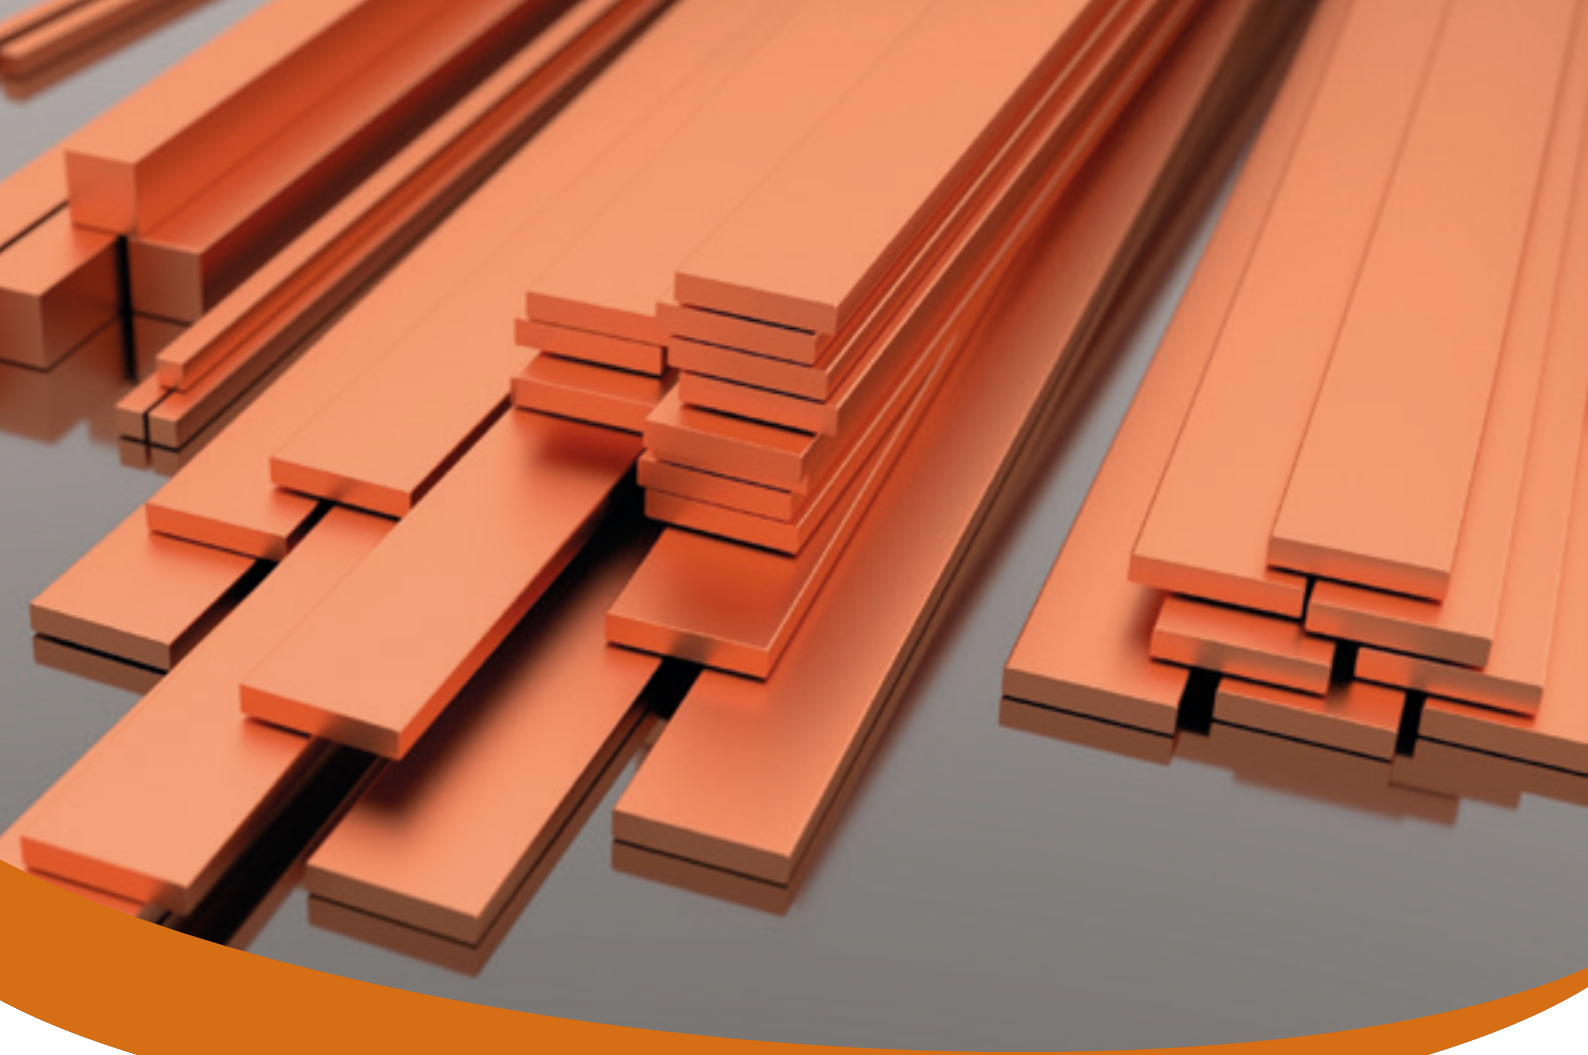

Our strength comes from a vast global network of sourcing the most competitive and highest quality products for our customers needs.

With sourcing offices worldwide and in the major low cost countries, we are able to seek products from around the world. We simplify the process of sourcing materials and finished products from global manufacturers, leaving you to enjoy the benefits of utilizing less costly foreign supplies, while encountering none of the problems such as language barriers and shipping arrangements.

Not only that, we think you'll find that purchasing from a foreign supplier is no different from a domestic manufacturer except that you will see reduce material costs and increased profits.

What's more, MSS Products is an ISO 9001 approved organisation, with our operations monitored and controlled by rigorous internal auditing so you can be sure that we'll deliver the right products on time, every time!

Non-ferrous metals

Copper

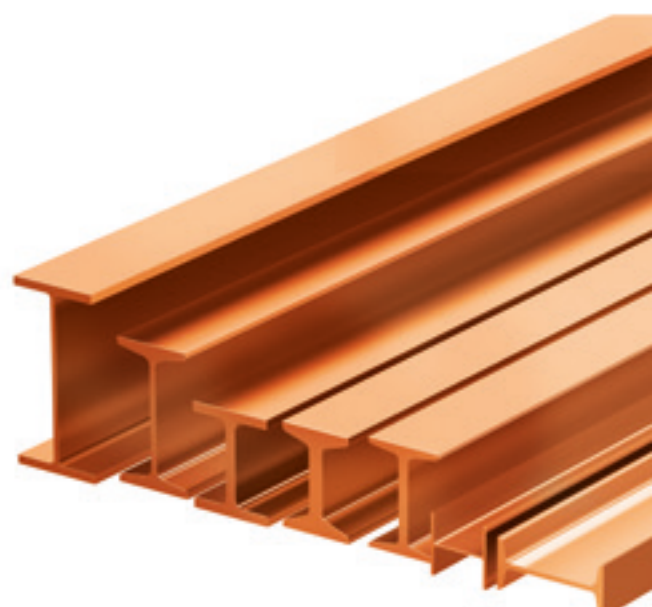

MSS Products are the largest independent stockholder of Copper drawn products in the UK.

With stockholding facilities of over 2000 tonnes, MSS Products are able to supply a full range of non-ferrous metals including:

- Copper Bar
- Copper Sheet
- Copper Rod
- Copper Wire
- Copper Strip
- Copper Profile

Our relationships with the worlds leading manufacturers of non-ferrous metals, ensure our customers receive short lead times and safe supply lines at the lowest price available, all whilst maintaining the highest of quality.

Non ferrous metals

Copper

Rods

With a vast range of Copper Rod available from stock, we are confident you will find what you are looking for within our range, however if you are looking for something special, we are always looking to add new products to our portfolio.

Profile

Having being founded over 40 years ago, we have accumulated a fortitude of experience in helping our customers receive the highest quality profiles which we source from our global network of contacts.

Sheet

Another stock standard which falls into our itinerary is Copper Sheet.

At MSS, we carry an extensive scope of sizes and as always, alternatives are available upon request, We also offer in Aluminum.

Busbar

With over a hundred sizes of Copper and Electrical Grade Aluminium Bar either in plain or tinned condition, our Busbar stocking at MSS is second to none.

Our long-standing involvement within the market enables us to provide very competitive rates and short lead times with delivery via our own fleet of vehicles.

Global Sourcing

MSS Products offer a platform to low cost manufacture of all types of engineered products.

Whether it be via our wholly owned manufacturing facility in Nashik, MSS India, or sourced by one of our worldwide offices, The MSS Group will manage all aspects of the international supply chain using our contacts with the worlds most important producers.

Our buying power and strong supply chain enables us to negotiate the best possible prices, helping you to reduce your material costs and increase profits.

Best of all, you can leave us to do all the hard work while you concentrate on running your business.

Global Sourcing

Pressed Parts

MSS are able to produce highly complex pressed parts along with providing economic solutions to a wide variety of components such as size and shape, this also includes sleeved, brazed, plated and bare fabricated parts.

Assemblies and Sub-assemblies

Again either made in house or sourced worldwide, MSS Products can supply a range of assemblies and sub-assemblies such as switch fuse units, earth bar, disconnectors and coil assemblies, along with similar products for the switchgear industry.

Flexible Components

Flexible connections are manufactured from three different processes, 'Wrapped, Consolidated and Braided', all which can be offered by our own manufacturing plant.

Our manufacturing plant combines the latest machinery with a highly specialised and experienced team to deliver excellent quality at a competitive price.

Machined Components

MSS India have consistently provided the highest quality manufacturing and machining service to its customers since 1999. Our 20,000 square foot CNC/VMC workshop boasts an arsenal of equipment all catered to tackle the high volume, milling and turning demanded by today's market. All products are made within strict quality control guidelines.

Plating Wire

Copper & Aluminium

If you are in need of a vastly experienced supplier of plating products at competitive prices, it's time you considered MSS Products.

Over the last 40 years we've provided the Plating Industry with quality Copper and Aluminum Wire in both coil and reel form.
